Profile Summary

Java Developer with hands-on experience in **Spring Boot** and **Microservices** architecture. Proficient in building scalable **REST APIs** using layered architecture, implementing service discovery (**Eureka**), distributed tracing (**Zipkin**), and integrating relational and **NoSQL** databases.

Technical Skills

- **Programming Skills:** Java (Core Java, Java 8 – Streams, Lambda Expressions)
- **Backend Technologies:** Servlets, JSP, Spring Boot, Spring MVC, REST APIs, Microservices
- **Database:** Oracle SQL, PL/SQL, MySQL, MongoDB, Redis, Spring JDBC, Hibernate, Spring JPA
- **Frontend:** HTML, CSS, JavaScript, TypeScript, React.js, Bootstrap, Tailwind CSS, Material UI
- **Tools:** Docker, Kubernetes, Git, GitHub, Maven, Gradle, Eclipse, STS, VS Code, DBeaver, JUnit 5, Mockito, Log4J, Lombok, Swagger, Postman, Insomnia, Hoppscotch

INTERNSHIP / TRAINING

Full Stack Java Developer – Naresh IT Technology (2025-26)

- Trained in Core Java, JDBC, Servlets, JSP, Spring, Spring Boot and Microservices
- Developed RESTful web applications using MVC and layered architecture
- Implemented CRUD operations using Spring Data JPA, Hibernate, and JDBC with Oracle, MySQL, MongoDB, and Redis

EDUCATION

Master of Computer Applications (MCA) – Ranchi University (2022–2024)

PROJECTS

Hotel Management System (Multi-Tenant SaaS –Architecture)

- Built a SaaS-based hotel management system using Spring Boot (Monolithic Architecture)
- Implemented database-per-tenant model with dynamic datasource routing
- Secured APIs using Spring Security and JWT authentication
- Developed modules for booking, billing, and user management using Spring Data JPA & Hibernate
- Implemented tenant onboarding, exception handling, and logging mechanisms

E-Commerce Web Application (Spring Boot)

- Built a Spring Boot-based e-commerce system with Product, Cart, and Order modules
- Developed REST APIs with JWT authentication and role-based access control
- Implemented CRUD operations using Spring Data JPA & Hibernate
- Integrated database operations with proper validation and exception handling
